PHYSICAL SAFE CRACKING

Concept, Intervention, Programm, Light, Video: ANNA CEEH

The underground areas of the strong room of the BAWAG Foundation have been occupied over night with minimal visual and intense bass-dominated acoustic interference or filled with live formulated sound masses:

The sound filled the architecture: the physical waves filled the occasionally visible architectural spaces: a double stairway, a small own safe room with a solid door, a narrow passage and a tiled room.

With **minimal light-interference**, the **unknown and unusual architecture** of the secret underground rooms was pointed noticeable.

Entrance located directly opposite the entrance of the Wiener Gruft (Vienna Caritas biggest facility for homeless people -> the site is monitored constantly by the police)

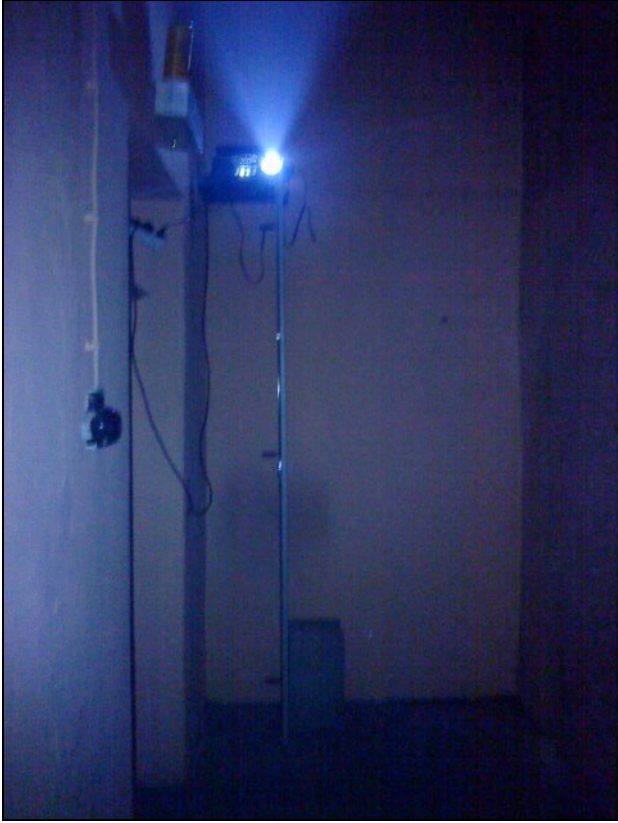

Musicians/ DJ's:

DJ Sotofett // SEX TAGS MANIA Techno Set// Norwegen

BORIS // Underground Dance Loops // AT

IZC // Dubsquare// Sub.FM // Broken Techno & 2-Step_live+ dj // AT

Tommi Grönlund // Finland

Pictures only with flash possible. Fotos by: Rainer Dragan, Barbara Pflanzner, Anna Ceeh
